14.45 - 15.30	 <p>S3. From Roadmap to Results: How Exmar Unified Planning and Group Reporting with CCH Tagetik</p>  <p>EXMAR, a leading player in the transport of liquefied gas products embarked in 2023 on an ambitious transformation to become a truly data-driven organization. Together with element61, they conducted a comprehensive roadmap exercise spanning financial, operational, and strategic reporting — ultimately selecting a modern data platform built on Databricks and Power BI, complemented by CCH Tagetik as the backbone for Corporate Performance Management.</p> <p>Today, EXMAR runs its full budgeting and planning cycle via CCH Tagetik and produces consolidated group figures directly from the platform. The result is a highly structured way of working, with significantly stronger business ownership of the numbers. In this session, we share insights from this end-to-end journey and what it truly takes to bring finance and business together around a single source of truth.</p> <p>Dimitri Van den Fonteyne, Head of Controlling - EXMAR Bjorn Van Damme, Partner Performance Management - element61</p>
